EDUCATION

Bachelor Of Mechatronics Systems Engineering (2024-2028) | 3rd Year

Western University, London, ON

WORK EXPERIENCE

Lawn Care Technician | Modern Turf Care

May – August 2026

- Worked with team of three to maintain properties at a high standard
- Wore proper protective PPE and inspected machinery daily

Grounds/Custodial Assistant | Beacon Christian School

Jun – August 2025

- Maintained outdoor areas and lawn Care machinery while adhering to safety procedures
- Independently prioritized daily tasks while coordinating with team members

ENGINEERING EXPERIENCE

PCB Power Supply

Sept. 2025

- Soldered surface mount and through-hole components onto a PCB
- Followed circuit diagram and performed proper intermediate testing

Ontario Skill Robotics Team Leader

Jan. 2024 – May 2024

- Cooperated with team members to design and build a competition ready robot
- Analyzed failure points and implemented solutions to solve root problems

Custom Speaker Build

Nov. 2023 – Apr. 2024

- Ensured optimal compatibility of components through research and software simulations
- Assembled speaker cabinets using power tools and soldered electronic components

3D Printed Iron Man Suit

Sept. 2023 – Oct. 2023

- Ensured completion of project under tight deadline
- 3D printed, painted, wired and assembled armour pieces

ENGINEERING PROFICIENCIES

- 3D Printing, basic CNC mill experience, Power tools and basic shop equipment
- Soldering (SMT & through-hole), PCB Assembly
- Microsoft suite (Word, Excel, Teams)
- 2D & 3D Modeling (Fusion 360, Inventor, SolidWorks, AutoCAD, OnShape)
- MATLAB, Java, C, C+
